Education

MDU-Faridabad Aug2021-Jun2023 B.C.A **CGPA:7.26/10** Relevant Coursework: Object Oriented Programming, Databases, Discrete Maths, Data Structures and Algorithms, Operating Systems, Computer Networks, Machine Learning, Data Mining, Advance Data Structures and Algorithms, Information Retrieval

Project

Personal Portfolio Website

Tech Stack: React, Vite, Tailwind CSS, Framer Motion

- Designed and developed a responsive portfolio site to showcase projects, skills, and contact info
- Implemented smooth scroll, animations, and dark/light mode to improve user experience
- Optimized for performance and SEO (minified CSS/JS, lazy loading)

Summer Collection E-Commerce UI

Tech Stack: React, CSS (or styled-components / Tailwind / Sass), Api

- Built a modern, responsive storefront UI to display seasonal collections and product cards
- Added filtering and sorting features (by price, category, etc.) to improve usability
- Ensured design consistency and mobile responsiveness across devices

Shiprocket Clone / Shipping Dashboard

Tech Stack: React, (plus any APIs, state management, etc.)

- Created a clone of a shipping management dashboard with features like order tracking, shipment statuses, and dashboard overview
- Integrated simulated API calls / mock data to demonstrate real-time updates, status filters, and pagination
- Ensured responsive design and smooth UI interactions
